WATERWORKS KEYSTONE

AT THE SOURCE

Where inspired design begins.

The finest stones imaginable. That is our goal in curating the Keystone collection. From remote mountains in Italy to ancient caves in Greece, we work with the most revered and respected quarries in the world. At these sources we painstakingly hand select only those stones that offer the quintessential qualities we seek in color, tone, variation, surface activity, texture and strength. Each a unique and natural work of art. That is when we know we have found the perfect Keystone.

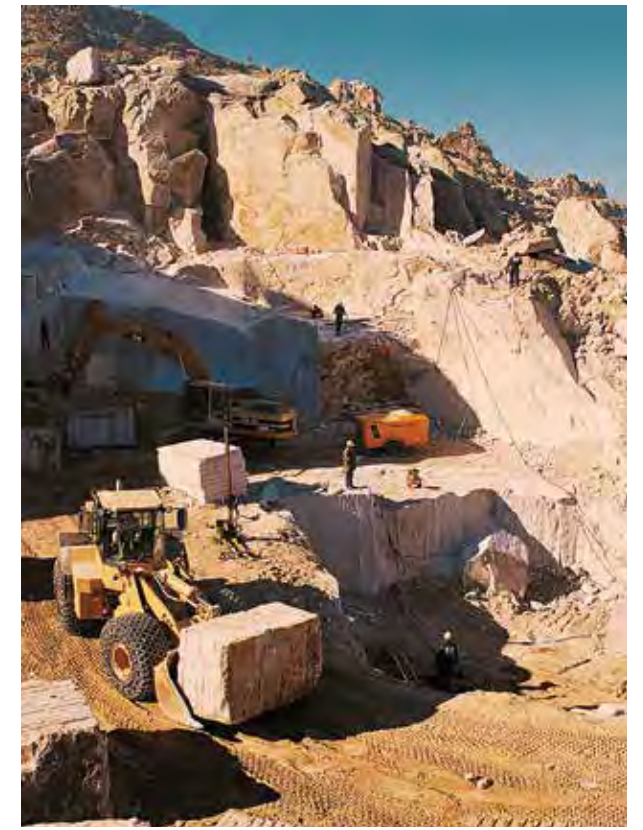

OF THE EARTH

From mountain to mosaics.

There is mystery and magic in exquisite stone. The process of identifying these elements starts at the quarry, as blocks of ancient stone are pulled from the earth and transformed into slabs where the intricate details of its rich history emerge. Perhaps there will be one stone among hundreds that captures exactly what we are looking for: richness and purity of color, beauty and balance of surface activity and endless design possibilities.

The result is a diverse collection—including limestone, marble, slate and sandstone—in a variety of surface textures and a broad selection of visually stunning color options. Wonderfully, no two pieces are exactly alike. Yet every Keystone offering embodies the qualities of durability, versatility and timelessness. And each piece is selected for its ability to enhance and distinguish different environments, from classic elegance to urban understatement.

Design legacy,
depth and rich detail.

NATURAL SELECTIONS

From backgrounds of pure white or warm ivory to bold statements in dimensional brown or multi-hued gray, the Keystone palette allows design inspiration to unfold organically, with color.

The detail of Keystone colors are brought out through a variety of texture choices, with a focus on polished and honed surfaces.

KEYSTONE OFFERINGS

Proportion and purpose.

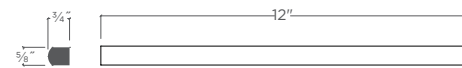

The Keystone program is comprehensive yet focused. There are nearly 50 stones available in a range of dimensional sizes. With essential pieces from the small mosaics to large slabs, Keystone is the perfect choice for floors, walls, countertops and decorative ornamentation. There are abundant options for combining colors, shades, textures and styles to seamlessly and beautifully accomplish a desired look.

Dimensional Stones: Stone that has been selected, trimmed and cut to a specified shape and size in a variety of textures and polished or honed finishes.

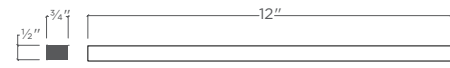

SELECT STONES AVAILABLE IN EACH STYLE. SEE MATRICES OR WATERWORKS.COM FOR DETAILS. SIZES ARE NOMINAL AND MAY VARY.

In Stock Moldings: The necessary finishing touches of surface applications available in select stones. From bases to liners and rails, moldings add an architectural element to walls and floors.

SLAB OPTIONS

A slab is cut from a large block of stone typically used for walls, countertops or washstand and vanity tops. The face of the slab comes in a honed or polished finish. We offer two slab size options that are suitable for a variety of applications.

Large-scale slabs (72" x 30") are available in 1¼" thickness; they are cut and ready to ship to your fabricator and come in a range of colors.

Full-size raw slabs (approx. 8' x 6') are untrimmed and can be customized to work in many settings. They are available in virtually every Keystone color to complement our dimensional stones and smaller in stock slabs. A qualified fabricator is needed to cut, finish and treat edges to achieve the final look.
