A PLACE TO RETREAT, REFLECT, REVIVE

The definitive bath experience is a seamless balance of intelligent design and absolute function. Our commitment to quality and innovation, from conception to the artful curation of details, creates a space that's distinctly your own.

VANITIES

A vanity establishes the design direction of a well-articulated bath. Its impeccable proportions anchor a space that is at once timeless, modern and original.

An understanding of classic design continues to inspire new proprietary shapes and finishes.

(opposite page) The Alta vanity is constructed in American oak that speaks to Waterworks' emphasis on quality, craftsmanship and timeless design.

(this page) The Belden vanity references a certain French 20th century restraint with its custom paint color and carefully selected marble slab. (opposite page) Industry and glamour meet in the Henry vanity with its refined metal work and mirrored paneling.

WASHSTANDS

The new generation of washstands reflects our heritage of distinct and diverse design with fresh materials and new silhouettes.

Architectural forms in patinated brass, cast iron and finely finished woods breathe openness and light into the room. Washstands and open-frame trestles speak to a variety of styles.

(opposite page) The Fabienne washstand manifests an honesty of expression with its chiseled-edge stone slab and hand wrought and finished iron base.

(this page, above) The Formwork washstand in solid stainless steel combines strength with a minimal understated form. (this page, right) The R.W. Atlas washstand pairs active marble with industrial-inspired details. (opposite page) The Arden washstand, with its contemporary wooden lines, is paired with an organic stone sink and chiseled-edge slab.

SINKS

Sculptural forms, exquisite materials
and enduring design define our
collection of sinks.

The finest materials — including stone, copper and ceramic —
are carefully culled from around the world and crafted into sinks
that are both special and essential.

*(opposite page) The Sten sinks, in Nero and Carrara stone, exemplify the
fine design detail that makes up every Waterworks product. The dimensions,
depth, quality and materials are made to endure and be enjoyed.*

Sink styles, whether vessel, drop in or undermount, demand the best in form and finish. (this page) Normandy copper sinks are hammered and polished by hand according to the old French tradition. (opposite page) The Titan in Carrara marble makes a bold and sophisticated statement.

BATHTUBS

As the centerpiece of the bath, an artful tub makes a statement and sets the tone for ritual and relaxation.

From freestanding designs to classic inset styles, our tubs are crafted from the finest materials with impeccable detail and perfect proportions.

(opposite page) The .25 bathtub's elegant curvilinear form is shaped to be equally beautiful and functional.

(this page, above) The classic Empire tub is luxuriously deep, and its elegant form is at home in many environments. (this page, left) Candide's streamlined curves and molded base are made in cast iron with an enamel interior, while Clothilde (opposite page) is handmade in copper and lined with tin to protect the purity of the water.

MIRRORS & BATH FURNITURE

Individual touches, from mirrors to furniture, add personality and layers of richness to the bath.

Our expansive assortment of mirrors, medicine cabinets, stools and side tables draws inspiration from notable eras of architectural excellence. Both functional and decorative, these elements create striking focal points that complement the central pieces in the bath.

(opposite page) The R.W. Atlas mirror's juxtaposition of American design and European craftsmanship is shown alongside the wall-mounted extending Crystal mirror.

(this page, above) The Formwork stool has a subtly shaped oak seat and base that references the Bauhaus movement. (this page, left) The Arden stool is an exercise in pared-back simplicity. (opposite page) The Fabienne mirror combines skilled ironwork with a generous mirrored surface.
