A Complete Design Experience

The American kitchen is changing. We see it all around us: farm-to-table dining, restaurant-style appliances and food-focused entertaining are creating a new kitchen culture. At Waterworks, we are re-imagining the kitchen as well. With more than three decades of expertise in authentic design, quality craftsmanship and advanced engineering for the bath and kitchen, Waterworks now offers a complete and unique design experience for our favorite gathering place.

Waterworks Kitchen is a comprehensive, one-stop design destination for timeless, modern and original options for the evolving kitchen: cabinets, hardware, sinks, fittings, lighting, surfaces, pot racks, furnishings and worktables.

Based on our heritage and passion for great design, creating a new kind of kitchen experience was a natural evolution for Waterworks. Our approach to the kitchen is the same as our approach to the bath: we provide a complete range of exceptional items that allow you to fully imagine, customize and personalize your space. Waterworks Kitchen provides all the necessary ingredients for your perfect kitchen.

I invite you to explore the possibilities.

cabinets

The canvas for creating and defining the space, our modern and traditional cabinet designs are characterized by craftsmanship, artistry and versatility. These fine wood cabinets are customizable and meticulously manufactured in the U.S. by skilled cabinet makers; available in a range of natural finishes and rich, exclusive paint colors.

sinks

Starting with prep and ending with clean-up, the sink is the hardest working appliance in the kitchen. Waterworks has created a variety of ultra-functional shapes and sizes from small bar sinks to 5-ft. long industrial designs, as well as multiple bowl and drain board configurations. Material choices include stainless steel, copper, stone and fine fireclay.

hardware

From robust and highly detailed, to sculptural and understated, these jewels add personality and points of distinction throughout your kitchen. Choose from a comprehensive selection of modern, original and inspired knobs, handles and pulls that appeal to the eye and the hand.

fittings

Waterworks has re-imagined and reconfigured the look and function of fittings for today's highly-productive kitchen, bar and laundry. Faucets, pot fillers and oversized double-spouts are designed to facilitate multi-tasking in styles that range from classic to iconic.

pot racks

Adding charm, character and convenience to the home cooking experience, a wall-mounted or hanging pot rack is an essential component of the seriously active kitchen. Whether you prefer simple or professional-grade sophistication, our pot racks keep your favorite tools close at hand.

surfaces

Bring color, texture and pattern to the kitchen with cement tiles, brick, stone, ceramic, glass, wood and terra cotta. There are hundreds of options, from clean and bright to daringly distinctive, that are ideal for counters, backsplashes, wall accents and flooring.

worktables

At the center of it all, the worktable is an indispensable and multi-purpose piece. Friends and family will gather round these impressive furniture designs to help chop veggies or enjoy conversation and cocktails before dinner is served. From modest to oversized.

furnishings

Personalize your kitchen experience with serving ware, cutting boards, table linens and accent pieces. Authentic, handmade and one-of-a-kind selections come from the U.S., Europe and Asia; the style spectrum goes from modern and minimalist to rare and rustic.

lighting

Illuminate with innovative ideas from large-scale pendants and industrial sconces to New England-inspired counter pedestal lights and decorative chandeliers. There are numerous styles—subtle to substantial—to create the perfect light for cooking, dining and entertaining.

new traditional kitchen

WARM WELCOME

Come home to rich color and exquisite craftsmanship that refresh classic design components. Your new traditional kitchen blends updated styling with familiar themes and references.

The Belden range of cabinets is classical with a twist; simple cove molding is combined with a wide, flat band that references both American Federal detailing and 20th-century French neoclassicism; pairs well with many hardware styles.

Personalize your kitchen with extraordinary color. Choose one of our many European paint finishes developed exclusively for Waterworks.
